

APPLICATION	Product	Ligand used	Binding capacity	Cat.No.
Antibody purification	Protein A Resin	Recombinant protein A	>20 mg human IgG/ml settled resin	L00210
	Protein A Resin FF	Recombinant protein A on FPLC-compatible resin	>40 mg human IgG/ml settled resin	L00464
	Protein G Resin	Recombinant protein G	>20 mg sheep IgG/ml settled resin	L00209
	Protein G Resin FF	Recombinant protein G on FPLC-compatible resin	≥ 20 mg human IgG/ml settled resin	L00664
	Protein L Resin	Recombinant protein L	>15 mg rabbit IgG/ml settled resin	L00239
Alkaline stable antibody purification resin	Monofinity A Resin	Recombinant alkaline tolerant protein A	>30 mg human IgG/ml settled resin	L00433
Antibody purification (prepacked column)	Monofinity A Resin - prep. column	Recombinant alkaline tolerant protein A in a prepacked column	>30 mg human IgG/ml settled resin	L00433
	Protein A Resin FF - prep. column	Recombinant alkaline tolerant protein A on FPLC-compatible resin in a prepacked column	> 40 mg human IgG/ ml settled resin	L00680
	Protein G Resin FF - prep. column	Recombinant protein G on FPLC-compatible resin in a prepacked column	≥ 20 mg human IgG/ml settled resin	L00681
His-tagged protein purification	High Affinity Ni-Charged Resin FF - prep. column	Ni-NTA-charged FPLC-compatible resin in a prepacked column	>45 mg of histidine-tagged protein /ml settled resin	L00683
	Ni-IDA Resin FF - prep. column	Ni-IDA-charged FPLC-compatible resin in a prepacked column	>40 mg of histidine-tagged protein /ml settled resin	L00684
GST fusion protein purification	Glutathione Resin	Glutathione	35-45 mg GST-tagged protein (26kD) /ml settled resin	L00206
	GST Fusion Protein Purification Kit			L00207
Purification of DAKDDDDK tagged protein	MonoRab™ Anti-DY-KDDDDK Affinity Resin	MonoRab™ Anti-DYKDDDDK antibody	Approximately 1.5 mg DYKDDDDK-tagged protein/ml settled resin	L00766
	Anti-DYKDDDDK G1 Affinity Resin	Anti-DYKDDDDK G1 antibody	Approximately 1 mg DY-KDDDDK-tagged protein/ml settled resin	L00432

APPLICATION	Product	Ligand used	Binding capacity	Cat.No.
Purification of biotinylated protein, antibody, lectin etc.	Streptavidin Resin	Streptavidin	120 nmol D-Biotin/ml settled resin	L00353
Immobilization of sulfhydryl-containing peptides, proteins and other ligands for following purification	High-Affinity Iodoacetyl Resin		>9 mg Goat IgG/ml settled resin	L00403
	High-Affinity Antibody Purification Kit		>9mg Goat IgG/ml settled resin	L00404
Immunoprecipitation	Anti-His Affinity Resin	THE™ anti-His monoclonal antibody	>0.8 mg of histidine-tagged protein /ml settled resin	L00439
	Chicken IgY Precipitating Resin	Goat Anti-Chicken IgY	Immunoprecipitation of chicken IgY or the enrichment of chicken primary IgY-protein complexes.	L00405
	Anti-DYKDDDDK IP Resin	Mouse anti-DYKDDDDK monoclonal antibody	Immunoprecipitation of DY-KDDDDK-tagged protein or DY-KDDDDK-tagged protein-target protein complex.	L00425
