

Labnet Labpette™ FX Fixed Volume Pipettors

Labnet Labpette™ FX Fixed Volume pipettors are ideal for applications where specific volumes are used repeatedly and sterilization by autoclaving is required.

The pipettors feature ergonomically designed body and finger rest for comfortable grip even during extended pipetting sessions. The smooth plunger movement and unique twist-eject tip removal system require minimal force and help to reduce the risk of repetitive strain injuries. The Labpette FX pipettors offer excellent chemical resistance and retain their high level of accuracy and precision during repeated use.

Labpette FX pipettors are fully autoclavable to avoid sample cross-contamination as well as color coded for easy identification and proper tip selection. Each pipettor is individually tested and supplied with a factory calibration certificate.

Features

- ▶ Seventeen fixed volumes from 2 to 1,000 μ L
- ▶ Ergonomically designed handle and finger rest
- ▶ Unique twist-eject tip removal system
- ▶ 3-year warranty
