

NanoDrop Calibration Services 2023

To ensure accurate results, it is essential to regularly calibrate any analytical device, including NanoDrop spectrophotometers. We offer an exclusive calibration service for all our NanoDrop users to help them maintain the performance of their instruments.

STANDARD Calibration Service

Calibration service **IN OUR SERVICE DEPARTMENT**

We will send you a transportation box for your ND instrument, which you can use to send it to our service department. Once we receive your instrument, we will promptly inspect, clean, and calibrate it. We will then return it to you with a calibration certificate.

NanoDrop 1000 2000 ONE Lite Lite Plus	CHF 680.00*
NanoDrop 2000 ^c ONE ^c	CHF 880.00*
NanoDrop 8000	CHF 1'200.00*
NanoDrop Eight	CHF 1'450.00*

PREMIUM Calibration Service

Calibration service **WIHT REPLACEMENT SERVICE**

To minimize disruption to your research, we will provide you with an exchange instrument while we calibrate your own instrument.

NanoDrop 1000 & ONE	CHF 1'030.00*
NanoDrop ONE ^c	CHF 1'230.00*
NanoDrop Eight	CHF 1'800.00*
